

Marine Version

From the no. 1 in hot food preparation

SelfCookingCenter® 5 Senses and CombiMaster® Plus

Safe cooking while travelling. Even on rough seas.

The marine version is suitable both for passenger ships and for harsh marine environments. The emphasis is placed on the safety of the operators, in particular, and on ensuring that all important functions can be used even on rough seas. The RATIONAL marine version is certified by Germanischer Lloyd, which is recognised all around the world, and conforms to the most stringent USPHS hygiene requirements.

The marine version is available as an option for all SelfCookingCenter® 5 Senses and CombiMaster® Plus Duo units (electric version).

Tested quality and safety

Units features:

> Protection against tipping (61/101/62/102 models)

Special floor fixings prevent the stand slipping or tipping over. The unit is securely fixed to the stand using a plate.

> Protection against tipping (model 201/202)

The stainless steel feet can be welded directly to the ship's floor or fixed to prevent slipping or tipping using special fixing plates. A wall fixing with 2 retaining brackets is also provided.

> Door immobiliser

The flexible and adjustable door immobiliser fixes the open cooking cabinet door, even during rough sea crossings.

> Special hinging rack

Special hinging rack with locking device prevent Gastronorm accessories slipping out.

> Protective door grille (available as an option on request)

The outer glass of the cooking cabinet door is protected against damage by a stainless steel grille. This makes it possible to look inside the cooking cabinet even when the door is closed.
